

Get involved

- Individuals and organisations can join the BSG network by subscribing to our mailing list, which allows you to receive information on upcoming events, as well as details about how to engage in activities across our four work streams. The BSG has over 800 people in its network, including:

- broadband service providers;
- broadband product suppliers and manufacturers;
- content developers,
- content aggregators;
- broadcasters;
- rights holders;
- advertisers;
- central government departments;
- local government;
- representatives from Devolved Administrations and RDAs;
- consumers and consumer representatives;
- trade unions and trade associations.

- Organisations can also become more engaged by sitting on the Executive Committee, the BSG's main decision body, which oversees the work programme and signs off reports, position papers and submissions.

- Membership of the Executive Committee is open to sponsoring organisations, as well as a number of SMEs and not for profit organisations.

- To enquire about joining the BSG network please complete this form or contact Peter Shearman.
